## TWIN-MINIDOZERS MAX 200 BAR

5710138881338  
09051113

**Twin-Minidozers** are especially good for the large pipes and rain outlets, where you find a lot of sand sludge, stones and fat.

Using the Twin-nozzles' backwards angles of spray at **25°** and **45°**, it is effective at removing the above materials. The material is jetted far backwards and the nozzles' angle to the top of the pipe presses the nozzles down to the bottom of the pipe as well as cleans the top.

Flow: 350 to 500 L/min.

The nozzle can be seen operating on our homepage.

Picture from filmclip on homepage.
